Carolina Ferrero Hernandez

Carolina contacted me through, Little Explorers Sensory in August 2011 enquiring about work experience with our sensory play classes for babies. It was a pleasure to offer Carolina unpaid experience and I thoroughly enjoyed working with her.

Carolina was enthusiastic, energetic, and eager to learn and participated in all classes with a very high level of professionalism. She responded well to instruction and was able to think and act independently in line with what was expected of her. Carolina was keen to learn about baby development, sensory play, the Early Years Foundation Stage Curriculum and how the classes were designed; she conducted her own research at home as well as asking questions and following links given to her.

Carolina was extremely friendly, polite and sociable with all adults and babies. She had a natural ability with babies and possessed special qualities which cannot be taught, that enabled her to communicate with and connect to babies in an exceptionally effective manner. I was incredibly happy to have her associated with Little Explorers Sensory and enjoyed our working relationship immensely.

I cannot recommend Carolina more highly. She will be a fantastic asset both on a personal and professional level. Please do not hesitate to contact me for more information regarding Carolina.

Yours

Emma Ward

Little Explorers is a dynamic and creative sensory play class for babies and carers who want to enhance their little explorer's discoveries about the world around them. Our weekly themed classes offer rich and varied sensory experiences designed to support brain development, which are underpinned by Early Years Foundation Stage curriculum. We encourage carers to engage in meaningful play with their babies in an exciting and friendly environment - and to be gloriously messy without the worry of cleaning up afterwards!

We actively support carers to learn about sensory play and develop high quality play skills in a fun and informal manner, building confidence and providing exciting ideas to use at home. We aspire to set carers and babies on a journey of learning and discovery through play, that extends well beyond Little Explorers sessions, enabling their little one to reach their fullest potential.
